

TITUS FIIFI APPIAH

Product Designer (UX/UI) | [Portfolio](#), [Behance](#), [LinkedIn](#),

Phone: +233557228178 | GPS: WS-448-5243 | fiifisapp4245@gmail.com

PROFILE

Product designer with 5 years of experience creating enterprise platforms and B2B tools that simplify complex operations. I translate technical requirements into workflows that reduce manual workarounds and drive measurable efficiency gains. My engineering background helps me bridge the gap between system architecture and usable design.

WORK EXPERIENCE

Deutsche Telekom (via Amalitech) – Germany / Remote

UX Designer (Enterprise Projects) | *June 2025 – Present*

Key Achievements

- Designed the intuitive OLT Swap System workflow, defining acceptance criteria to manage planning and execution, reducing task complexity and improving operational accuracy.
- Built the Incident Perceptor, a data-driven dashboard leveraging AI insights to identify incident causes and improve decision-making efficiency quickly.
- Facilitated design reviews to clarify requirements and align engineering teams around user needs.
- Delivered high-fidelity prototypes and detailed design documentation, translating strategic design into clear technical logic for enterprise-grade implementation.

Amalitech – Takoradi, Ghana

UX Designer | *Oct 2021 – Present*

Key Contributions & Achievements

- Identified a week-long bottleneck in OLT infrastructure port mapping, with our GenAI team struggling with an error-prone manual Excel process handling 30+ optimization constraints.
- Built an automated port mapping tool in 3 days as an unsolicited initiative, unblocking the team and replacing the manual workflow. Leveraged a petroleum engineering background outside the core UX role.
- Owned end-to-end product design, managing the full lifecycle from discovery, user research, Information Architecture, and user flows to prototyping and design QA.
- Served as the primary UX liaison for cross-functional product teams across Europe, ensuring seamless feature delivery and improved design velocity by proactively communicating design rationale and defining clear technical requirements and acceptance criteria for implementation.

Broadspectrum Payments – Accra, Ghana

UI/UX Designer | *Aug 2024 – Dec 2024*

- Designed UI for multi-channel POS systems (NFC, mobile money, card payments), improving ease of use for vendors and customers.
- Built administrative dashboards for internal teams, streamlining workflows and improving data clarity.
- Delivered a responsive online/offline payment platform adopted by SMEs across Ghana.
- Recognized by leadership for speed and quality, significantly reducing development cycles.

Duapa Workspace – Takoradi, Ghana

UI/UX Designer | *Jan 2023 – May 2023*

- Redesigned banking software interfaces to boost usability and reduce friction.
- Conducted research, usability testing, and prototyping for mobile and web products.

SKILLS AND INTERESTS

Core Expertise: Enterprise UX Design, B2B Platforms, Design Systems

Tools: Figma (Expert), Jira, Maze, Lyssna

Methods: User Research, Visual design, Usability Testing, Design Thinking, A/B Testing

EDUCATION

Technical University of Munich (TUM) – Munich, Germany

Digital Product Development | *Dec 2024 – Jan 2025*

University of Mines and Technology (UMaT) – Tarkwa, Ghana

BSc. Petroleum Engineering (First Class) | *2016 – 2020*

CERTIFICATES

- Enterprise Design Thinking, IBM (2024)
- Certified Google UX Designer, Coursera (2021)
- Front-End Engineer, Codecademy (2022)
